

# MECHANISATION AND AUTOMATION RESEARCH CONSORTIUM OF OIL PALM (MARCOP)

## Empowering Oil Palm Mechanisation and Automation

 A platform of government-industry for the development and application of oil palm planting automation and mechanisation technology.

 To produce the quantum leap technologies for the oil palm plantation application that could reduce human labour dependency, increase productivity and improve product quality.

**PULSE FIBRE LASER**

**EXOSKELETON**

**ROBOTIC**

**IOT**

**ARTIFICIAL INTELLIGENCE**

**AUTONOMOUS**

**The adoption of mechanisation and automation by the oil palm industry will be intensified through strategic partnerships**
